

TECHNICAL RIDER

“CIRCO’N’DATI”

With and By: Juriy Longhi & Luca Chiarva

Description:

Intense and witty show based on juggling, acrobatics and equilibrium: the meeting of two jugglers becomes pre-text for a constant and reciprocal stimulus to go beyond the limit of their proper capacities, involving and amazing the audience in a fast chain of high-level and strong-impact juggling numbers...when juggling becomes real show!

For any kind of public.

Duration:

About forty-five minutes.

Preparation Time:

About fifty minutes.

Technical requirements:

It's needed a minimum height of 4,5 meters and a minimum space of 10x5 meters, on a plane ground, in order to assemble the structure reproduced below; it must be hooked onto two hooking points on the ground level, with a distance of about ten meters and a resistance of about 350Kg (for example: lamp-posts, traffic lights, road signs, columns, cement benches, trees, iron bars firmly planted in the ground, cement blocks with hooking ring...).

As far as the sound it's concerned a socket is needed, as well as for the lights, in order to power the PA system and four Par-56 lights.
